Summary

I am looking for flexible shifts and working on weekends.

I consider myself to be hardworking and always looking for gaining new experiences.

Experience

Barback/Floor Personnel

Elmpark Ltd., The Barracks • Carlow
09/2023 - Present

I worked for The Barracks throughout my studies in Carlow, and learned multiple skills. I was trained to work as a bartender,

completing the training successfully.

My job consisted of many duties, such as:

- Keep sure of high standard of cleanliness of the bar, floor areas and toilets.
- Setting up of bars before service and keeping them maintained, such as stock levels during service and cleaning duties after service.
- Managing the storage areas.

Warehouse Worker

Kubi, spol. s.r.o. • Moravany, Czech Republic
03/2023 - 08/2023

I worked for Kubi as warehouseman for several months, and in this time I learned multiple skills, such as:

- preparing goods for delivery
- packaging those goods to send to customers
- operating machine for printing labels and editing those labels in programs such a Corel Draw
- communicating with customers

Volunteer Work

• Ireland

I enjoy volunteering, seeing it as an opportunity to learn new skills and get experience from others.

I volunteered at Kilkenny Animated Festival 2023 and 2024 in Ireland, for example, helping teenagers with Blender, directing and communicating with others to ensure a smooth experience etc.

Education

Computing in Interactive Digital Art and Design

South East Technological University • Carlow
05/2027

Currently in second year and looking forward to expand my knowledge.

Some of my subjects are:

- Programming
- 2D Digital Art
- Communication Skills.
- Design

Engineering

Secondary industrial school and Higher Professional School • Brno, Czech Republic

06/2022

I graduated in the field of mechatronics and during my studies I learned skills such as:

- basics of engineering, from operating lathes to CNC programming
 - learning how to work with various programs, such as SolidWorks and Autocad
 - designing technical drawings both in pencil and in various programs (SolidWorks)
 - creating 2D and 3D models of different components in SolidWorks
 - work school experience in engineering company KovoKachlik, where I mostly operated CNC and lathes
-
